# ASSEMBLY INSTRUCTIONS

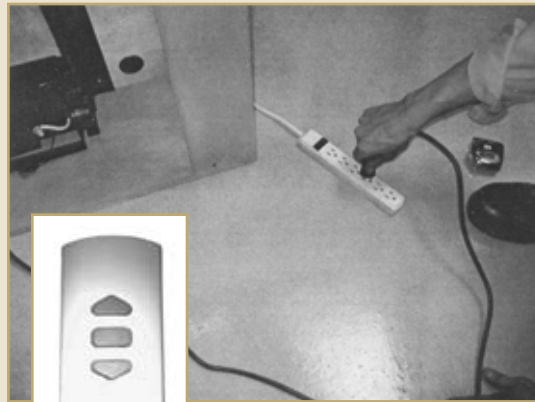

**A** With the platform in the down position, place the lift against the back panel of the cabinet.

**B** Assure that the lift is centered with the cabinet opening and the mounting rails are plumb.

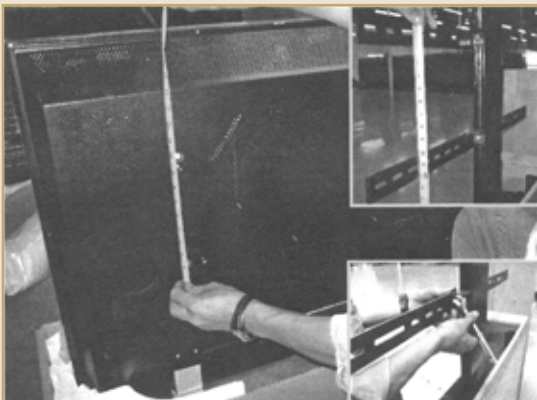

**C** Use 10 #6x3/4" screws to attach lift to panel (screws not included)

**D** Plug power cord into a 110VAC convenience outlet. Press UP on the remote. The motor will travel up and automatically stop at the top position.

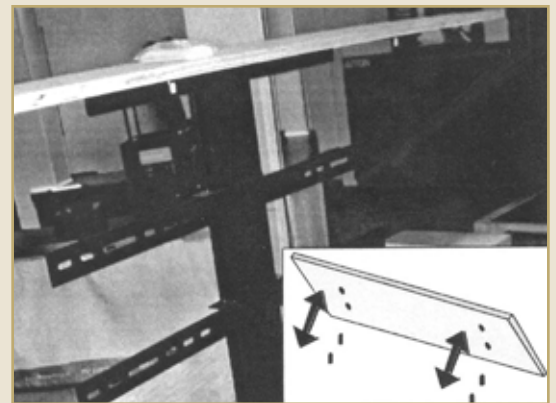

SMART REMOTE

crews by the manufacturer. Plug TV power cord into the 110VAC outlet on platform. Run the AV cables along the wire management attached to lift.

**E** Measure the distance between the mounting hole patterns on the TV and adjust the cross bars to match accordingly. Tighten the cross bars and mount TV using the suggested

**F** Mount your cabinet's lid on dowels so the lid is free to pull away if it hits an obstruction. Press the DOWN button on the remote to lower lid and test fit. The remote also has a stop button which allows you to stop the platform between the top and bottom positions.

## INSTALLATION SUPPORT:

We take great pride in manufacturing the best lift systems in the world. Our design and production techniques enable simple installation. In the event that you require assistance, do not hesitate to contact one of our technicians. We will be happy to answer your questions and resolve any problems you encounter during the installation process. Phone Support: 661-257-9282, ext. 104 • Email Support: [tech@auton.com](mailto:tech@auton.com)
